TWO CENTS.

CITY SUITS THE FARWELLS

Practically Decided to
Locate Here.

Like the Werkman Fac-
tory Very Much.

They Will Go to Niles
Tonight.

Victor Robertson and H. J. Campbell, representing the John V. Farwell company of Chicago, arrived here this morning and a committee of citizens took them to the Werkman furniture factory. The building suited them to perfection and they almost said that the overall factory would come here if the necessary help could be secured.

To convince the gentlemen on the help question the committee took them to the Hopper-Morgan factory and introduced them to Superintendent Hastie. Mr. Hastie assured them that the help necessary could easily be secured and expressed the opinion that 5,000 could be found if desired. He produced an armful of letters from people asking for jobs.

The gentlemen will go to Niles on the afternoon train and inspect a building worth \$15,000 in that city which has been offered them as a gift. The freight rates will bring them to Benton Harbor, however.

IN FIFTH PLACE.

High Position Held by the Michigan
Masons.

Detroit, Jan. 24.—Several hundred delegates were present yesterday when the Michigan grand lodge of Masons began its annual session. Grand Master Frank T. Lodge of Detroit, in his annual address said that today Michigan has 386 constituent lodges and 41,917 members, ranking fifth among the grand lodges of this continent. Grand Secretary J. S. Conover of Coldwater, reported that 657 members had died during the year and that the total present membership is 41,917, net gain of 1,530. The cash receipts for the year were \$19,011, of which \$4,073 was for the Masonic Home and the balance for the general fund.

What Joseph Was.

The Sabbath school teacher had been telling the class about Joseph, particularly with reference to his coat of many colors, and how his father rewarded him for being a good boy, for Joseph, she said, told his father whenever he caught any of his brothers in the act of doing wrong.

"Can any little boy or girl tell me what Joseph was?" the teacher asked, hoping that some of them had caught the idea that he was Jacob's favorite.

"I know," one of the little girls said, holding up her hand.

"What was he?"

"A tattle-tale!" was the reply.—Baltimore News.

Independent Companies Agree Not
to Sell Out

The Twin City Company in the
Deal.

A conference of twenty-five representatives of independent telephone companies was held in Grand Rapids yesterday. They represented the western part of the state from Kalamazoo north as far as Lansing. The state field was carefully canvassed and it was learned that the recent consolidation in Detroit, instead of covering 70 per cent of the telephone business of the state, as was claimed by the Bell people, in reality covered but about 27 per cent. A compact was entered into not to sell out on any terms, and to unite and put up as still a fight against the monopoly of the business on the basis proposed by the Bell company as possible. Results were generally encouraging. In Hastings recently the Bell company offered the city two free phones, and they were accepted. But at the next meeting of the council its former action was rescinded. Opposition to the Bell program and methods was reported increasing in all sections.

John R. Price of this city was present and signed the agreement for the Twin City company.

CHEAPER TO PAY.

Marshall Man Didn't Like the Looks of
Constable Sinsabaugh.

Over a year ago a fellow giving his name as W. A. Babbett and his home as Marshall, Michigan, visited this city and gave a couple of worthless checks to Charles Hirsch and received the money, amounting to about \$35. Mr. Hirsch waited some time for the money and wrote several letters to Babbett but could not get any satisfaction in the way of a settlement.

Monday Constable Sinsabaugh armed with a warrant for the arrest of Babbett went to Marshall and found that his man lived with his mother-in-law in the country and the officer immediately drove to his home. He found Babbett and informed him that unless the matter was straightened up at once he would take him to Benton Harbor where he would have to stand trial.

After considerable talking Babbett wanted to know how much he could settle for and Officer Sinsabaugh sat down, figured the account, and announced that \$71.68 would square accounts and unless it was paid in less than five minutes a start for Benton Harbor would be made. Babbett produced the cash and the plucky constable came home much better satisfied with the money than though he had the company of the man.

ONLY A BOXING CONTEST

The Reported Prize Fight in the
City.

What was reported as a prize fight and alleged to have occurred on Broadway Monday night, turns out to have been only a friendly boxing contest. Ed Lane, one of the boys reported in the sun says of the affair,

"The way he story was stated that there was a prize fight was that we kept closed doors and would not allow the boys of the neighborhood in the room. We used eight ounce gloves and there was no digging by rounds but we merely boxed the same as we do in every corner. The same methods as employed under the administration of Mr. Foster will be in vogue under the new cashier."

The Farmers and Merchants bank has made an unusually good reputation since the closing of the First National bank. Although the only bank in the city for two years still it treated the public in the same manner as though there had been a bank on every corner. The same methods as employed under the administration of Mr. Foster will be in vogue under the new cashier.

The Jigger in Uganda.

Several reports were suffering from that African pest, the "jigger," whose scientific name of *Pulex penetrans* describes him and his habits concisely and well. He is an exact reproduction in miniature of the common flea (*Pulex irritans*), but instead of merely inflicting a comparatively innocuous bite he burrows under the skin, close to the toe nail for preference, and then proceeds to propagate the species. Unless he is very carefully removed the sores cause the most intense irritation and may lay a man up completely. The usual method of removing him is to widen the hole in which he has entered and then extract him, intact if possible, with a needle, care being taken that no eggs or young are left behind; the place should then be dressed to prevent festering. It is not advisable to march much after removing jiggers, but unfortunately it is frequently unavoidable.

I may mention that Lieut. Col. Macdonald once told me that during his first visit to Uganda some natives caught a leopard in one of the banana plantations whose feet were so thoroughly diseased from jiggers that he was quite unable to move or to defend himself.—Blackwood.

The Baptist Revival.

The revival meetings at the Baptist church are increasing in interest and power every night. Last night was the best meeting held so far. Some fifteen or twenty came forward seeking Christ. One man 58 years old testified with a shining face to the power of Christ to save him, saying he had found salvation within a few hours. The meetings will be continued all this week, Pastor Maxfield preaching every night.

Mrs. William Glover Dead.

Mrs. William Glover of Chicago died Monday evening. She was known to many Benton Harbor people by her maiden name, Miss Alice Lee. The remains will be brought here for burial in Morton cemetery tomorrow afternoon.

NEW BANK CASHIER

Warren Carroll Elected
by F. & M. Bank.

Will Succeed Charles
Foster, Resigned.

Bank Regrets to Part
With Old Cashier.

Late yesterday afternoon, after THE EVENING NEWS had gone to press, the Farmers and Merchants bank of this city elected Warren Carroll as cashier of the bank to succeed Charles Foster, resigned. The election of Mr. Carroll was made by a unanimous vote.

At the annual meeting of the directors held a short time ago Mr. Foster announced that it would be impossible for him to continue in the position of cashier. The board thought it possible that Mr. Foster would be able to change the decision in a short time and so elected him as cashier. However, he insisted upon the acceptance of his resignation.

When the bank was organized twelve years ago Mr. Foster was one of the chief organizers. From that time until this morning, when the new cashier began his duties, he has been cashier of the bank. The bank has grown and grown until there is now not a stronger institution in the state than this bank and to the retiring cashier a sum of more than to any other than belongs the credit. After a pleasant association of twelve years it is not strange that the directors regret the departure of Mr. Foster.

In speaking of his retirement Mr. Foster said this afternoon: "Ever since I graduated from the Benton Harbor high school I have been doing chee work. The work in the bank for the past twelve years has been hard and I feel as though I had earned a rest. When the weather becomes warm I shall start out with my gun and fishing rod and try to find my appetite and put myself in such a condition that when I bite into a piece of bread that it will taste good. As regards the bank, it is the strongest anywhere about here. Though not longer officially connected with it still I shall be as much interested in its prosperity as ever."

The new cashier, Mr. Carroll, is an attorney by profession. Besides, he has a practical knowledge of banking. For several years he was the director of a bank at Port Townsend, Wash., and acted as attorney for the bank as well. He was also receiver of a bank in the west and wound up its affairs in a most satisfactory way. He came to Benton Harbor a couple of years ago and together with Attorney L. W. Ford established the Benton Harbor abstract office. Mr. Carroll himself superintended the work of making a new set of abstracts. The abstract office will be continued the same as usual. Mr. Carroll is well posted on values of property here, is a cordial gentleman and will make a strong man for the bank.

The directors of the bank are considering the proposition of buying property a little more centrally located and of putting in a banking house that will be finer than any in this part of the country.

The Farmers and Merchants bank has made an unusually good reputation since the closing of the First National bank. Although the only bank in the city for two years still it treated the public in the same manner as though there had been a bank on every corner. The same methods as employed under the administration of Mr. Foster will be in vogue under the new cashier.

WINE OF CARDUI
Woman Knows Woman.

ZURICH, KAN., Jan. 31.
 I used Wine of Cardui for nervousness and weakness in the womb. After taking one bottle I was well again. I am a midwife and always recommend Wine of Cardui to my lady friends during pregnancy and after birth as a tonic. Every lady who takes it finds that it does even more than is claimed for it.

MRS. V. M. BOISVERT.

**McELREE'S
 Wine of Cardui**

Nobody knows woman like woman. Men go to medical colleges, study books and listen to lectures. They learn indirectly of the diseases of women, but they are men and can never fully understand the ailments, the sufferings, the agonies of mothers, wives and sisters. A woman **KNOWS.** Mrs. Boisvert **KNOWS.** She has passed through the trials and tribulations of her sex. She has been neared by when her sisters suffered. She has seen them relieved and cured with Wine of Cardui. Is it any wonder she recommends it?

IT IS NOT A SUCCESS.

Disappointment at Result of Bulleter's Movement.

IT IS PRACTICALLY AT A STANDSTILL.

British Infantry Separated from Boers by Only 1,400 Yards—Daylight Attempt to Close the Gap Would Be Deadly.

London, Jan. 24.—Contrary to the announcement made shortly before midnight by the war office that nothing further would be issued until Wednesday forenoon, the following dispatch from Gen. Buller, dated at Spearman's Camp, January 23, 6:21 p.m., has been posted:

"Warren holds the position he gained two days ago. In front of him, at about 1,400 yards, is the enemy's position, west of Spions Kop. It is on higher ground than Warren's position, so it is impossible to see into it properly.

"It can be approached only over bare open slopes, and the ridges held by Warren are so steep that guns cannot be placed on them. But we are shelling the enemy's position with howitzers and field artillery, placed on lower ground, behind intrenchments."

"The enemy is replying with Creusot and other artillery. In this duel the advantage rests with us, as we appear to be searching his trenches, and his artillery fire is not causing us much loss.

"An attempt will be made to-night to seize Spions Kop, the salient of which forms the left of the enemy's position, facing Trichards Drift, and which divides it from the position facing Potgieters Drift. It has considerable command over all the enemy's intrenchments."

At a Standstill.

London, Jan. 24.—Gen. Buller's great turning movement, of which so much had been expected, has come to a standstill. His carefully worded message to the war office telling this, after a silence of two days, reads like an apology and

known whether any of the occupants of the building were killed.

Continue to Bombard Kimberley.
 Modder River, Tuesday, Jan. 24.—A heliograph message from Kimberley says the Boers vigorously renewed the bombardment Tuesday.

A Boer Account.

London, Jan. 24.—The following account of the fighting is from Boer sources:

Boer Head Laager, Ladysmith, Monday, Jan. 22.—A battle has been raging along the Oliviers Hoek road since Saturday between the Boers, under Pretorius, and 6,000 British. The fighting is in full swing at Spions Kop. The Boers under Botha and Cronje have been sent thither. The British elsewhere are only making a reconnaissance of the Boer positions. President Steyn was under fire at the foremost position of the Free States.

Fought Until Dark.

Boer Camp, Upper Tugela River, Sunday, Jan. 21.—After Commandant Botha checked the British advance yesterday morning, it was expected that there would be no further action until to-morrow. This afternoon, however, signs were discerned of an intended movement in the British northern camp. When the heat, which was more frightful than any yet experienced, had worn off, the British cannon started in full force, and the infantry advanced in extended order. Gens. Botha and Cronje held the high hills over which the road to Ladysmith passes. When the mauser fire opened a pandemonium of sound filled the air. The vindictive crash of lyddite shells, the sharp volleys of Lee-Metfords, and the whip-like crack of muskets were interspersed with the boom of the Boer Maxims. The battle ended with darkness, but not without evidence of execution among the British that were manifest at sunrise. Field Cornet Ernst Erlich was killed, nor did the generals escape unscathed.

At the central position, Swart Kop, where the other road to Ladysmith crosses the hills, the British advanced from low keppies on the banks of the Tugela unmolested. Then they entered the zone of mauser fire and although their naval gun fire put up the usual terrible racket, the accuracy was stopped and the British had to count out their dead and wounded. Commandant Viljoen and two burghers were knocked senseless by an explosion of lyddite, but Commandant Viljoen recovered. Field Cornet Holthorn was wounded and, on refusing to surrender, was shot. The British loss was probably insignifi-

cant. They complain that expansive bullets in maxims were found in the field and softened bullets with Lee-Metfords. The Boers admit that sporting mausers were occasionally found, but that they deny the charge respecting expansive bullets. Not a shot was fired by the Boers with cannon or rifle at the Swart Kop position this side of the river. One thousand infantry and battery advanced into the second row of low hills between the republicans and the river. Heavy cannonading proceeded at a range of 2,000 yards, but the Boers maintained the silence of death. This must have staggered the British, as the advance was stopped, and this morning they had retired to their old positions.

LOSS BY FLOODS IN JAPAN.

Inundations Destroy Life and Much Property Through Northern Provinces—Many Vessels Lost.

Tacoma, Wash., Jan. 24.—Official reports just completed give details of inundations which destroyed property valued at over 6,000,000 yen in Hakkaido province, northern Japan, in December. Thirty-five towns in the district of Shikari were devastated. Since September no less than 17,288 houses have been submerged or washed away in Hakkaido alone, while the total damage is placed at 13,000,000 yen. Complete returns show 100 fishing schooners and other craft were destroyed or sunk during the severe storm which swept over the Japanese coast December 23 to 25. The total number of lives lost is placed at 189.

Inventor Dead.

London, Jan. 24.—Prof. David Edward Hughes, inventor of the Hughes printing telegraph instrument, now in use on all important continental lines in Europe and on all submarine lines between England and the continent, is dead, aged 69 years. He was educated at Bardstown college, Kentucky, and was the inventor of the induction balance and the discoverer of the microphone, now almost universally used as a transmitter to the telephone.

British Thrice Repulsed.

Pretoria, Jan. 22 (via Lourenco Marques, Jan. 24).—According to official dispatches received from the Boer laager near Coenso 30,000 British made a simultaneous attack Saturday on several positions of the Tugela river, with the object of forcing the relief of Ladysmith. A terrific battle ensued, and fighting continued for 60 hours. A frightful bombardment by 46 British

cannon opened the engagement. Then came grand infantry attacks by the forces under Gens. Buller and Warren, who were three times repulsed, with great losses.

White's Headquarters Smashed.

Head Boer Laager, Ladysmith, Jan. 22.—The quarters of Gens. White and Hunter were smashed this morning by

an explanation. Gen. Warren holds the ridges, but the enemy's position is higher. The British artillery is playing on the Boer positions, and the Boers are replying. The British infantry is separated only by 1,400 yards from the enemy, but an approach to the steep slopes, across the bare open, would expose the British to a fatal rifle fire. Gen. Buller's plans have reached their development. He declines to send his infantry across this zone against formidable positions by daylight, and discloses his purpose to assault the Spion kop heights during the night. This appears to be the key to the Boer defenses.

If he takes it and thus commands the adjacent country, an important and possibly a decisive step will be accomplished.

Look for Worse News.

The Morning Post and the Standard touch lightly upon the unpleasant features of the dispatch and take hope from the projected night attack, but all things considered, the dispatch looks like preparation for worse news.

Apparently Lord Roberts has nothing whatever to do with Gen. Buller's operation. Gen. Buller and the war office communicate with each other direct. Buller's scheme was conceived before Lord Roberts arrived at Cape Town, and its execution was begun on the day he landed. The fact that the judgment of Lord Roberts has not been brought to bear upon the movement does not add to public confidence.

CHORUS from the other cities—We didn't want the overall factory anyway, for it would only give employment to women.

IT is hard to believe that the weather man has made no mistake. Evidently he is dishing out October weather for January.

NILES and the other cities can console themselves with the satisfaction that they made Benton Harbor hustle to secure the overall factory anyway.

THE reason Roberts of Utah does not give up polygamy is because he believes that it would be deserting the cause of God. Congress is wasting altogether too much time on this blatant pretender to righteousness.

THE British army does not like to way the Boers fight. It is even reported that the Boers have so disregarded the rules of warfare as to kill numbers of the queen's army in a single battle. The other nations ought to interfere, if the charge can be proven.

THE fact is now coming out why the last legislature failed to make an appropriation for the payment of the sugar bounty. One of the heads of the lobby push at Lansing made an open demand that the sugar factories of the state put up \$10,000 in the bank and as soon as the appropriation bill was passed that the \$10,000 would belong to the push. One of the men who is said to have made this offer is now under indictment.

Itching Piles.

False modesty causes many people to endure in silence the greatest misery imaginable from itching piles. One application of Dr. A. W. Chase's Ointment will soothe and ease the itching, one box will completely cure the worst case of blind, itching, bleeding or protruding piles. Dr. A. W. Chase's Ointment is guaranteed to cure piles. 50 cents, all druggists or Dr. A. W. Chase Med. Co., Buffalo, N. Y. Free sample box for stamp.

The Bluff Alpenite.

I like the bluff manner of men just raised from the ranks. Truce to convenience! My host sits, while I stand; half the guests in the hotel tuck their napkins down their throats, as if prepared for a shave or a shampoo; strangers unpack their inmost souls, disembosoming themselves gratuitously of half their family history. Your faithful Alpenite sports a diamond stud with a negligee shirt—the stud for brag, the soft shirt for comfort, the two for individualism. Coarser fellows—and I like them best of all—wear immense badges or buttons adorned with photographs of their sweethearts. Delicious! Many a time and oft I have been Tommy Atkins caressing Judy O'Grady on the top of the Mile End 'bus; Abner Glenn sat for his tintype with his brawny arms wound close about pretty Rachel; both had their hearts on their sleeves. So be it, say I; but here struts a man with his heart in his buttonhole. In quite this boyish spirit the errant chevalier sang forth his love, when knighthood was in flower. —R. L. Hartt, in Atlantic.

Queer Breed of Foxes.

Gilbertsville, Pa., can boast of either the boldest liar in the country or a breed of foxes hitherto unknown to natural history. A hunt club started a fox in that vicinity the other day and reported that after a chase of seven hours the fox, being hard pressed, took refuge in a tree, from which the hunters took him alive.—Chicago Chronicle.

Men and Women as Transgressors.

Statistics show that man bears false witness 100 times to a woman's 17; man for forgery and counterfeit coin was convicted 100 times to a woman's 11; in France women are summoned before the tribunals four times less than men. Taking the whole of Europe women are five times less guilty than men.—Chicago Chronicle.

There is more Cataract in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven cataract to be a constitutional disease, and therefore requires constitutional treatment. Hall's Cataract Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. HE REPEATED KIPLING.

Insane Soldier Fires at All Who Come Within Range, Just Like the Novelist's Hero.

From Washington comes the news that Private Nicholas Davis, of troop B, Third cavalry, has been committed to the government hospital for the insane at St. Elizabeth's, by order of Gen. Merritt, in command of the department of the east. Davis enlisted from Kentucky and a fortnight ago went crazy brooding over what he deemed the wrongs inflicted on him by his fellow troopers. In his mania he got possession of a Krag-Jorgenson rifle and repeated the incident made known to the world several years ago by Kipling in his tale, "In the Matter of a Private." Barricading himself in the troop's quar-

DAVIS FIRED INDISCRIMINATELY.

ters, Davis fired at every one who came within range of the window at which he stationed himself, but fortunately injured no one.

After exhausting every expedient without exposing his men to the danger of death in the vain effort to induce Davis to desist and give up his weapon, the commandant ordered a sergeant and a squad to capture him. Instead of directing a volley at the unfortunate man and thereby lifting a soldier in time of peace without trial, the sergeant, who is a crack shot, fired his weapon at the crazy man. At the time only Davis' head and the lock and barrel of his gun could be seen over the window sill. The sergeant's bullet struck the ammunition chamber of the rifle and a piece of the shattered weapon struck Davis on the head, starting but not seriously injuring him. By this lucky shot a tragedy was averted and the action of the commandant pitiful.

Davis was pronounced insane, upon the report, Gen. Merritt ordered him to be committed to the asylum.
